Nuxe launches three-in-one inflight skincare kit

By **Hibah Noor** on August, 13 2019 | Fragrances, Cosmetics, Skincare & Haircare

Nuxe Moisture Me Travel Kit retail range

French beauty brand Nuxe has created a set of three products designed to restore the skin's natural level of hydration.

Marion Bruimaud, Travel Retail Director, Nuxe, said: "We are all familiar with the dehydrating effects of air travel, especially long haul. The Moisture Me kit, with products packaged in small sizes, is a dedicated solution and reflects our commitment to developing products that meet specific travel retail customer needs."

For the face, Crème Fraîche de Beauté has 48-hour moisturizing anti-pollution actions in a 30ml tube. The powdery melting butter texture blends with the skin to create a fresh and soft finish.

Nuxe Lip Balm with Ultra-Nourishing and Repairing Honey Rêve de Miel is available in a 15ml jar. This natural concentrate contains acacia honey, shea butter, botanical oils, and propolis oleoactive. The exclusive blend has been proven to nourish, repair, soothe and protect dry or damaged lips, the company said.
