

# Timex watches now available in Attenza Duty Free shops

The luxury watch brand showcases a range of its products at El Salvador International Airport

Duty Free Dynamics, master franchisor of the travel retail segment in the Americas, is proud to announce the launching of Timex in Attenza Duty Free shops.

Since October, Timex watches have been available in Panama (Colón, showroom), Colombia, El Salvador and Ecuador – four out of the six countries where the company operates.

Timex is a company of passionate watchmakers, obsessed with craftsmanship and thoughtful design. Established 1854 in Waterbury, Connecticut, since its beginning, Timex has created exceptional timepieces for real people.

Through generations of watchmaking, Timex made its name synonymous with an iconic watch design that could withstand anything. Today, the luxury brand believes the only way to meet its historic standards is to keep making watches with their own hands.
