

Travel Blue has your luggage covered

Travel Blue's new luggage covers are manufactured in washable and durable material with a distinctive design

Travel accessories specialist Travel Blue has introduced a range of luggage covers designed to protect and individualize suitcases.

Executive Director, Jonathan Smith – a well-seasoned traveler himself – said: “With the air miles that I cover, I know that luggage can be a major source of stress. Arriving at your destination to find scrapes, scratches, broken zips and potentially content loss is one of the worst situations. The trauma and loss of time filling out forms at the end of a long journey ruins what should be a pleasurable trip or holiday.”

Manufactured in washable and durable polyester/Spandex with a distinctive design, the covers are available in three stretchy sizes to cover all options. A handy pouch and two-year global warranty are also included.

Travel retail prices range from US\$19 to US\$29, depending on the size.
