

# Changi Recommends unveils Changi Mobile

Travel service concierge Changi Recommends by Changi Travel Services has announced the launching of Changi Mobile in partnership with telecommunication provider M1 Limited (M1).

Changi Mobile's no-contract plans start from an affordable \$8 per month for 8GB of data, call time and SMS, to \$35 for 100GB of data, call time and SMS. Subscribers can customize their monthly plans, and unused data for the month will be automatically rolled over to the next month at no additional cost, allowing customers a longer lead time to maximize their data entitlement.

Plans also include free incoming calls and SMSes (except Flexi Data), free Caller ID, complimentary porting over of existing numbers, free SIM card delivery within two working days, fee waiver for a new SIM card, free SIM card activation and 24/7 customer assistance.
