

Munich Airport opens two stores in T2

Passengers at Munich Airport T2 can get a haircut, a traditional wet shave and a manicure at the new men's Barber House

Munich Airport has launched two new stores in Terminal 2, including a men's barber.

Homeware retailer Tripidi has begun trading in T2's non-Schengen Gate H area, focusing on the needs of international travelers.

The assortment includes world-renowned top brands from the home and family sectors, such as Fissler, WMF and Faber-Castell.

Victorinox, maker of the Original Swiss Army Pocket Knife, and Lamy, the writing instruments company, are operating shop-in-shop concepts in the store.

Tripidi also offers customers the option of reserving items for pick-up in the store or buying them online and having them shipped to their homes anywhere in the world.

Passengers can now get a haircut, a traditional wet shave and a manicure at the new men's Barber House in the Schengen Gate G area behind the security checkpoint.

Barber House offers wellness treatments for men as well as high-quality skincare and shaving products.
